PRODUCT

Redwood Chip Mulch

Value:

Used to reduce raindrop splash erosion.
Reduces weeds while conserving soil moisture and improving the potential for vigorous long term vegetation.
Improves water infiltration rate.
Reduces storm water runoff volume and velocity.

Recommended Uses:

Typically applied on 2:1 slopes or flatter at a thickness of 2" – 3" deep.

Best Practices:

Easily applied by pneumatic blower truck on slopes or flat areas at a depth of 2"-3" (270-400 cubic yards/acre).

Redwood Chip Mulch can be applied around existing plants, directly on soil or over weed barrier fabric.

Consider using with compost (incorporate) to treat poor soils that are compacted, nutrient depleted or poorly draining.

Redwood Chip Mulch

Redwood Chip Mulch contains:

Clean, recycled wood.

We can apply Redwood Chip Mulch to 2:1 slopes or flatter areas.

A depth of 2" to 3" is the recommended.

Specifications:

Redwood Chip Mulch is manufactured from clean, recycled wood. It meets Caltrans specification for wood mulch, code 202011.

Particle Size: 1/2" – 1", and 1/4" in thickness.
(85% by volume shall conform)
